<b>JUSTIFICATION:</b>	
1. Value varies with purpose. Guideline value and market value are totally different and they cannot be compared with each other.	
2. Guideline rate remains same irrespective of supply and demand whereas the market value changes according to the demand. (More the demand, More the market value).	
3. In a few places, market rate may be more than the guideline rate whereas in a few places, market rate may be less than the guideline rate. In valuation, the market value of any two properties on a same location need not be same due to so many practical site conditions.	
4. Guideline value does not speak about potential value whereas potential values can be considered while certifying the market value.	
<b>There are many Court Judgments with regards to Guideline Value and Market Value. Some of them are:</b>	
<p>"The guideline value is a rate fixed by authorities under the Stamp Act for purpose of determining the true market value of the property disclosed in an instrument requiring payment of stamp duty. Thus, the guideline value fixed is <u>not final</u> but only a prima facie rate prevailing in an area".</p> <p>3. In the case of Hindustan Motors vs. Appropriate Authority, the Madras High Court on 20.10.2000 "held that the rates for purpose of registration of immovable property are limited only for payment of stamp duty and have no application determining the market value".</p> <p>4.
