Market Value For Plot = Rs. 12,18,80,684.50 /-

JUSTIFICATION:

1. Value varies with purpose. Guideline value and market value are totally different and they cannot be compared with each other.
2. Guideline rate remains same irrespective of supply and demand whereas the market value changes according to the demand. (More the demand, More the market value).
3. In a few places, market rate may be more than the guideline rate whereas in a few places, market rate may be less than the guideline rate. In valuation, the market value of any two properties on a same location need not be same due to so many practical site conditions.
4. Guideline value does not speak about potential value whereas potential values can be considered while certifying the market value.

There are many Court Judgments with regards to Guideline Value and Market Value. Some of them are:

1. In the case of Ramesh Chand Bansal vs. District Magistrate, Collector, Ghaziabad, ANU/SC/0369/1999:1999(5) SCC 62, Wherein the Supreme Court has held:
"The circle rate fixed by the Collector is not final but is only a prima facie determination of rate of an area concerned, only to give guidance to the Registering Authority to test Primafacie whether the instrument has properly described the value of the Property. The circle rate under this Rule is neither final for the authority nor to one subjected to pay the stamp duty.
It is very limited in its application as it only directs the Registering Authority to refer to the Collector for determination in case property is undervalued in such instrument. The circle rate does not take away the right of such person to show that the property in question is correctly valued as he gets an opportunity in case of under-valuation to prove it before the Collector after reference is made".
2. In the case of R.Sai Bharathi vs. J.Jayalalitha, MANU/SC/0956/2003:2004(2) SCC 9, While examining the issue in the context of a case relating to disproportionate assets, the Supreme Court has held:
"The guideline value is a rate fixed by authorities under the Stamp Act for purpose of determining the true market value of the property disclosed in an instrument requiring payment of stamp duty. Thus, the guideline value fixed is not final but only a primafacie rate prevailing in an area".
3. In the case of Hindustan Motors vs. Appropriate Authority, the Madras High Court on 20.10.2000 "held that the rates for purpose of registration of immovable property are limited only for payment of stamp duty and have no application determining the market value".
4. The Supreme Court of India in Thakur Kuldeep Singh (D) Thr.Lr. & Ors.vs. Union of india and others, on 8th March, 2010, observed: "We accept that in view of the purpose for which the 'circle rates' have been notified by the Ministry of Urban Affairs and Employment, market value of a plot cannot be determined solely on the basis of the circle rates".
5. In chimanlal Hargovind das vs. Special Land Acquisition Officer, Poona, AIR 1988 SC 1652, the Supreme Court indicated what are the plus and minus factors which are required to be followed.

Plus factor	Minus factor
1. Smallness of size 2. Proximity to a road 3. Frontage on a road 4. Nearness to developed area 5. Regular Shape	1. Largeness of size 2. Situation on the interior at a distance from the road. 3. Narrow strip of land with very small frontage compared to depth. 4. Lower level requiring the depressed portion to be filled up. 5. Remoteness from developed locality.
